Driven Front-End Developer with Specialization in **React**, where I can utilize my expertise to build robust responsive web applications that enhance user experience. Skilled in integrating front-end interfaces. Adept at solving complex problems, collaborating with teams, and continuously learning to stay updated with industry trends

PROFESSIONAL EXPERIENCE

Front-End Developer, Intern

[Verzeo], [Hyderabad]

March 2023 - Aug 2023

- Developed Front-End Components Using React.js: Gained hands-on experience in building and optimizing user interfaces with React.js for real-world projects.
- Implemented State Management with Redux Applied Redux for state management, improving the efficiency and maintainability of web applications.
- Collaborated in an Agile Environment: Worked closely with a development team, actively participating in Agile processes such as stand-ups and code reviews.
- Debugged and Troubleshot Code Issues: Enhanced problem-solving skills by identifying and fixing bugs, contributing to the overall stability and performance of applications.

Freelance Web Developer

Remote

Jan 2023 - present

- **Designed and developed full-stack custom web applications** using React.js, Node.js, and MongoDB, tailored to enhance client business operations and user engagement.
 - Implemented **responsive, mobile-first designs** and optimized website performance, ensuring accessibility and fast load times across all devices.
 - Created **custom content management systems (CMS)**, enabling clients to easily manage website content without technical expertise.
 - Provided **end-to-end project management**, from initial design and development to post-launch support and iterative improvements based on client feedback.
-

KEY PROJECTS

ChatGPT Clone - [Link](#) | [GitRepo](#)

Technologies: React.js, JavaScript, HTML, CSS, Node.js, Express.js

- Developed a ChatGPT clone using **React.js** (frontend) and **Express.js** (backend), integrating **OpenAI APIs** for natural language processing.
- Implemented **RESTful APIs** for smooth communication between the frontend and backend, optimizing performance and scalability.
- Created an intuitive, responsive UI with React.js, ensuring cross-device compatibility and a seamless user experience.
- Managed API authentication, error handling, and state management (using **Redux**), ensuring security and efficiency.
- Collaborated in a team to debug, test, and deploy the application in a production environment, ensuring quality and reliability.

Spotify Clone - [Link](#) | [GitRepo](#)

Technologies: React.js, JavaScript, HTML, CSS, Node.js, Express.js

- Built a Spotify-like app where users can log in using their Spotify account.
- Used **React.js** to create a sleek and responsive user interface.
- Connected to Spotify's servers to fetch user data like playlists, favorite songs, and artists.
- Enabled secure login with Spotify's authentication system.
- Designed the app to work smoothly on both desktop and mobile devices.

Netflix Clone - [Link](#) | [GitRepo](#)

Technologies: React.js, REDUX, JavaScript, HTML, CSS, Firebase

- Developed a Responsive UI: Built a user-friendly, responsive interface replicating Netflix using React.js and CSS.
- State Management with Redux Utilized Redux for efficient state management, ensuring smooth and consistent user interactions.
- Real-Time Data Fetching: Integrated Web socket for real-time data updates and seamless content streaming.
- Back-End Integration: Designed and connected a Node.js and Express.js backend with MongoDB for secure data storage and efficient API handling.

The Wild Oasis

Technologies: React.js, JavaScript, Supabase, Styled Components,

- Designed a Modern UI: Created a visually appealing and responsive user interface using React.js and Styled Components to apply modular and reusable styles directly within component files.
- Integrated Back-End with Supabase base Implemented Supabase for back-end services, including user authentication, real-time database interactions, and data management.
- Enhanced User Experience: Focused on delivering a smooth and engaging user journey through clean design and intuitive navigation, with custom, dynamic styles tailored to user interactions.
- Efficient Data Handling: Ensured secure and efficient data storage and retrieval with Supabase.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

2018-2022

Nalla Narasimha Reddy Education Society's Group of Institutions, Hyderabad, Telangana

CORE COMPETENCIES

- **Web Development:** React.js, REDUX, JavaScript, HTML5, CSS3, Bootstrap
 - **Back-End Development:** Node.js, RESTful APIs, Java Spring Boot,
 - **Database Management:** SQL, MongoDB
 - **Version Control & Tools:** Git, IntelliJ, Android Studio, VS Code
 - **Project Management:** Agile Methodologies
-

INTERESTS

- **Technology:** Staying updated with the latest trends in web development, AI/ML, and cloud computing.
- **Mentorship:** Passionate about mentoring aspiring developers and help to improve their coding skills.
